GOOD TIDINGS.

The Zealandia on Saturday last tion of plantation agents of San Fran- sprung up. cisco for the disposal of the coming crop and acceptable to the planters. It was stop to all these improvements. quite natural therefore that in negotations looking to the control of the commeans of disposal of the output of the plantations they represented is no sec ret. They have succeeded in putting things into such a shape that within a

commenced to extend its works. This successful move brings joy to not a few hearts throughout these islands. It beamed from not a few countenances as the news was given forth on ,he arrival of the mail. It will no doubt infuse new life and activity address has been issued to the people

to prevent the dangers of war and her both countries.

promising outlook in various ways.

Large Sugar Contract.

The proprietors of the American Refinery have recently closed contracts with certain Hawaiian planters for about two-thirds of the Sugar crop for the ensuing year. This means 55,000 tons, and possibly 60,000 tons. The contract is to run three years. Heretofore these contracts have been made annually, and for the past two years the California Refinery has been the purchaser. As that refinery already controls about a third of the crop from its own plantations, the purchase of the other two-thirds gave it practically the entire crop of the Islands. This has been the case during the year now drawing to a close. Two years ago the contract was on the lands delivered at San Francisco. Last reported. September the contract was on the Cuban basis at New York less 34c per b. The contract just made by the American Refinery is also on the Cuban on August 28th. A large assemblage basis, which means the price of dutiable attended the burial ceremonies notwith Cuban Sugar at New York less 3/4c. This is the best rate ever made with the Hawaiian planters, as the Cuban basis at New York is invariably lower than the Manila basis at San Francisco. The Hawaiian planters have the option of getting their sugars to San Francisco in their own way. If they can save \$2 per ton in freight, it will make a difference of over \$100,000. The commission for handling the Sugar is also a considerable item in favor of the contracting parties. The works of the American Refinery are being enlarged by the addition of wharf, warehouse and manufacturing facilities. The the enterprise is supposed to argue well be maintained.

will prove a good thing for consumers. American Sugar Refinery Company Thompson, makers of surgeon's instruhave been filed in the County Clerk's ments, London, was burned August office in San Francisco. The object is 28th. Loss \$250,000.
